

Industry Focus

Performance and Reliability in Agriculture

In the agriculture industry, it is essential that both plant equipment and structures are kept operational. In particular, this is true during the peak harvesting season, to avoid maintenance problems that can result in increased costs and spoiled/deteriorated produce.

Belzona can provide a cost-effective solution to such maintenance problems by minimizing downtime, labor, and equipment replacement costs, while at the same time, increasing efficiency and environmental compliance in:

- **Chemical containment areas**
- **Floor, wall, and roof protection**
- **Shafts, bearings, and bushings**
- **Conveyor belts, rubber rollers, and elevators**

Additional Application Areas Include:

- Elevator belt repairs
- Clip joint sealing
- Creation of cleats
- Non-slip on drive drums
- Potato harvester roller repair
- Silo base sealing
- Concrete repairs
- Floor repair and protection
- Wall repair and protection
- Roof repair and protection
- Fuel, herbicide, and pesticide containment sealing
- Pin and bush housing rebuilds
- Oversized bearing housings
- Leak sealing in pipes
- Leak sealing in tanks
- Grip systems
- Tire repairs
- Engine repair

Service

Through a global distribution network, covering 120 countries, Belzona can provide a full 24-hour, on-site service with guidance and technical advice on the application of Belzona products. This service is available through the local Belzona Consultant.

Experience

Since 1952, Belzona has provided global expertise in the development and manufacture of innovative repair and protection solutions. Across a range of industries, Belzona's track record has gained the confidence of countless engineers, contractors, and maintenance personnel worldwide.

Technology

Belzona products are engineered to withstand the most aggressive environments such as erosion, corrosion, abrasion, chemical attack, and mechanical damage, extending equipment life, and improving efficiency.

Reliability

Industry can count on Belzona to provide a prompt response, whether it is an emergency repair, or simply a routine maintenance issue.

People

From the chemists and engineers in the Belzona centers, to the network of local Technical Consultants, each person is part of the Belzona team, knowledgeable and trained in solving the problems of your specific industry.
