

Industry Focus

Performance and Reliability in Buildings and Structures

Whether the problem is water penetration, mechanical damage, wear and abrasion, or concerns with health and safety, Belzona has a complete range of innovative repair and protection systems for all types of buildings and structures. Belzona provides a cost effective solution to such maintenance problems by minimising downtime, labor, and expensive replacement costs.

With product applications that have gained approvals worldwide by contractors and specifiers, Belzona's range of high performance polymers have been designed to address many of the typical problems within industrial and commercial facilities including:

- **Weatherproofing all types of roofing substrates and insulation**
- **Rebuilding, resurfacing, and protection of concrete and stone**
- **Protection against environmental attack**
- **Prevention of slips and to provide positive grip**

Additional Application Areas Include:

Roof Repair and Protection

- Flat roofs
- Gutters
- Flashings
- Upstands
- Parapet Walls
- Seams
- Glazing bars
- Joints
- Vents
- Corrugated sheeting

Concrete Repair and Protection

- Spalled concrete
- Expansion joints
- Steps, treads, and risers
- Resurfacing uneven floors
- Chemical containment areas
- Rescreeding damaged or deteriorated floor areas
- Spalled stonework
- Bund areas
- Channels and gratings
- Columns
- Stone window sills

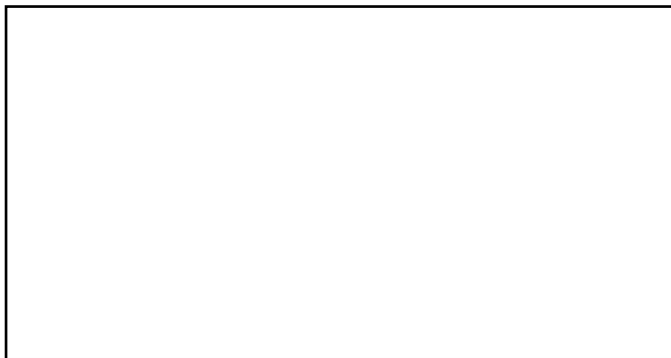

Wall Coating Systems

- Transparent protection for stonework
- Reducing internal condensation
- Decorative weatherproofing and waterproofing
- Corrosion protection

Safety Surfacing Systems

- Metal surfaces
- Concrete steps
- Wooden ramps, steps, and decking
- Floor areas

Service

Through a global distribution network, covering 120 countries, Belzona can provide a full 24-hour, on-site service with guidance and technical advice on the application of Belzona products. This service is available through the local Belzona Consultant.

Experience

Since 1952, Belzona has provided global expertise in the development and manufacture of innovative repair and protection solutions. Across a range of industries, Belzona's track record has gained the confidence of countless engineers, contractors, and maintenance personnel worldwide.

Technology

Belzona products are engineered to withstand the most aggressive environments such as erosion, corrosion, abrasion, chemical attack, and mechanical damage, extending equipment life, and improving efficiency.

Reliability

Industry can count on Belzona to provide a prompt response, whether it is an emergency repair, or simply a routine maintenance issue.

People

From the chemists and engineers in the Belzona centers, to the network of local Technical Consultants, each person is part of the Belzona team, knowledgeable and trained in solving the problems of your specific industry.
