

Industry Focus

Performance and Reliability in the Fishing Industry

Due to operating in harsh environments, fishing boats are likely to experience maintenance problems such as erosion-corrosion, galvanic attack, and general wear and tear, ultimately resulting in increased operational costs.

Belzona can provide a range of long term and emergency repair solutions to such maintenance problems by minimizing downtime, labor, and equipment replacement costs. Belzona's high performance polymers have been designed to address many of the problems within the fishing industry such as:

- **Emergency repairs while at sea**
- **Live leaks**
- **Mechanical damage and general equipment repairs throughout the boat**
- **Erosion-corrosion in fluid flow systems**
- **Galvanic damage on heat exchangers, pumps, and other critical equipment**
- **Engine repair**

Additional Application Areas Include:

Water Fuel and Hydraulic Systems

- Pipe repairs and flange reforming
- Worn and leaking valves
- Insulation protection

Water Condensation Systems

- Pump repair and protection
- Heat exchanger galvanic corrosion

Net Handling

- Worn or damaged power blocks
- Damaged shafts and bearing housings

Engine Rooms

- Damaged shafts
- Cracked castings
- Over sized bearing housings
- Leaking fuel and water tanks

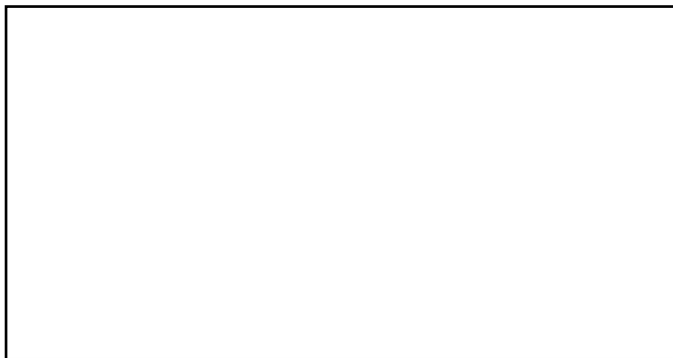

Propulsion

- Worn kort nozzles and bow thrusters
- Damaged propellers
- Damaged and worn tail shafts
- Damaged and worn rudders

On Deck

- Steel protection
- Grip systems

For more information, please contact your local Belzona representative.

Service

Through a global distribution network, covering 120 countries, Belzona can provide a full 24-hour, on-site service with guidance and technical advice on the application of Belzona products. This service is available through the local Belzona Consultant.

Experience

Since 1952, Belzona has provided global expertise in the development and manufacture of innovative repair and protection solutions. Across a range of industries, Belzona's track record has gained the confidence of countless engineers, contractors, and maintenance personnel worldwide.

Technology

Belzona products are engineered to withstand the most aggressive environments such as erosion, corrosion, abrasion, chemical attack, and mechanical damage, extending equipment life, and improving efficiency.

Reliability

Industry can count on Belzona to provide a prompt response, whether it is an emergency repair, or simply a routine maintenance issue.

People

From the chemists and engineers in the Belzona centers, to the network of local Technical Consultants, each person is part of the Belzona team, knowledgeable and trained in solving the problems of your specific industry.
